

SAFE FIRE Protection Ltd.

Dear customer,

We want to update you on precautionary measures which Safe Fire Protection Ltd are taking to minimise the risk of spreading Covid19.

These include but are not limited to

- 🔥 Providing regular updates to all employees.
- 🔥 Reinforcing personal hygiene controls
- 🔥 Emphasising to all employees frequent and proper hand washing.
- 🔥 Educating our employees on prevention.

We are continuing to follow and monitor all official guidance from the UK government and Public Health England and will keep you updated of any further control measures we decide to take to protect our staff and clients.

Please be aware you may receive phone calls from unknown mobile numbers as we may ask office staff to work from home. We ask that you please be patient with us as we may at short notice have to postpone site visits but this will be kept to an absolute minimum, if likewise you need to cancel any of our site attendances please could you inform us as soon as is possible to avoid unnecessary travel on our engineers behalf. Email will be responded to but there may be a slight delay.

We thank you for your continued business and understanding at this time.

Kind Regards

Stuart Leslie

Company Director
